MEMORIE DELLA SOCIETÀ ASTRONOMICA ITALIANA

Vol.79 n.4 2008

The central kiloparsec:

Active Galactic Nuclei and their hosts

Ierapetra, Crete, Greece, June 4-6, 2008

editors: Andrei Lobanov, Emmanouil Angelakis, Manel Perucho Pla

TABLE OF CONTENTS

Session 3: Accretion: disks and inflows

Session 4: Stars and gas in the nuclear region

Session 5: Disk-outflow connection and molecular dusty torus

Session 6: Relativistic jets and the nuclear region

Session 7: AGN feedback

Session 8: Sub-relativistic outflows and extended regions

Session 9: SMBH and their galactic hosts

Session 10: Binary supermassive black holes in AGN

Session 11: Co-evolution of SMBH and AGN
